

Capstone Cabaret

July 26 from 7 PM - 9:30 PM

Mike Szabo

Mike Szabo spent a lifetime singing other people's songs around campfires and until 2017 had never written songs of his own. Then, pushed by his nephew, he went to his first open mic. Standing on a stage and singing to an audience for the first time changed everything and soon after, Mike wrote his first song and many more over the next few years. With his songs, he found his own voice and a dream he never knew he had. October 2020 saw his first studio album make its way into the world - Take my Heart - produced by Heath West of Melodious Design Recording. Mike and Heath are well under way on the sophomore album, but this time they had more than 60 songs to choose from.

With support from FACTOR Canada, this past September saw the release of the Rolling Home EP, produced by Curtis Phagoo. Mike's lifetime of playing some of the best songs ever written formed a strong foundation to build his own book of songs on. A book he hopes the world will open.
